TECHNICAL CONDITIONS

File format

We prefer you only send PDF documents of X1a, X3 or X4 quality. Further information on the PDF/X standard can be found at: www.pdfx-ready.ch

Colour space

The magazine is printed in the "PSO Uncoated v3 (FOGRA 52)" colour profile. Please note that all colours used that do not correspond to this colour profile are converted into "relative colorimetric".

Image resolution/Transparency

For the highest possible quality of the images, they should have a resolution of 70 l/cm. Transparent elements should be flattened beforehand with a resolution of at least 500 l/cm.

Geometry/Crop

In order to avoid additional costs, please provide us with the print data according to the published advertisement sizes specified in the media data. Advertisements with bled-off margins require a 3 mm bleed on all sides.

DELIVERY

zeitschriftenverlag@medienatelier.ch
